HOW TO: FIX JAVA SECURITY BLOCKING ASYCUDA

If you see this dialog box when you try to open ASYCUDA LIVE or TEST, then please follow the steps below as a temporary solution:

1. Open the Java Control Panel using one of the two methods:

Method 1: Go to the search bar and type Configure Java, click to open

E	3est	match			
	*	Configure Java			Pur-
2	Sear	ch work and web			Config
	Q	configure java - See work and web results	>		A
	۹	configure java app	>	C F	Open Pup as administrator
	Q	configure java settings	>	6	Open file location
	Q	configure java panel	>	\$	Pin to Start
	Q	configure java windows 11	>	<u>ج</u> کہ 10	Pin to taskbar
	Q	configure java control panel	>	U	Uninstall
	Q	configure java windows 10	>		
	Q	configure java update	>		
	Q	configure java download	>		
٦	This	PC - Documents			
		R_Configure.java	>		
	word				
	Conf	igure Java			

Method 2: Go to Control Panel → Programs → Click on the Java

2. In Java Control Panel, navigate to the Security Tab. Under Security Tab select **Edit Site List** (outlined red below)

3. In the Exception Site List Dialog, add each of the following sites:

- a. <u>http://asyworld.revenue.gov.ws</u> (Select Continue when prompted)
- b. <u>https://asyworld.revenue.gov.ws</u>

Click OK once the sites have been added in the List.

🛓 E	xception Site List	×
Appl pron	ications launched from the sites listed below will be allowed to run after the appropriate security npts.	
·	Location	
9	http://asyworld.revenue.gov.ws	T.
-	https://asyworld.revenue.gov.ws	1
		1
_	Add Remove	
1	FILE and HTTP protocols are considered a security risk. We recommend using HTTPS sites where available.	
	OK	

4. Confirm the details added as shown on the below image then click OK to Exit Control Panel

📓 Java Control Panel		_		X							
General Update Java Security Ad	vanced										
Enable Java content for browser an	d Web Start applications			it unch ots. ist this							
Security level for applications not on the Exception Site list											
🔿 Very High											
Only Java applications identified by a certificate from a trusted authority are allowed to run, and only if the certificate can be verified as not revoked.											
O High											
Java applications identified by a certificate from a trusted authority are allowed to run, even if the revocation status of the certificate cannot be verified. Exception Site List Applications launched from the sites listed below will be allowed to run after the appropriate											
http://asyworld.revenue.gov.ws https://asyworld.revenue.gov.ws	-	Edit Sit	e List								
	Restore Security Prompts	Manage Ce	rtificates								
		/									
	ОК	Cancel	Арр	ly							
		Close the Java save any chan	Control P ges you h	anel and ave made							

5. Now you can start the ASYCUDA LIVE or TEST as normal however before you can log in Java will prompt to accept running the application every time you log in AW:

6. Login using your credentials to use ASYCUDA WORLD

End
